

**Government Facilities
Military Bases**

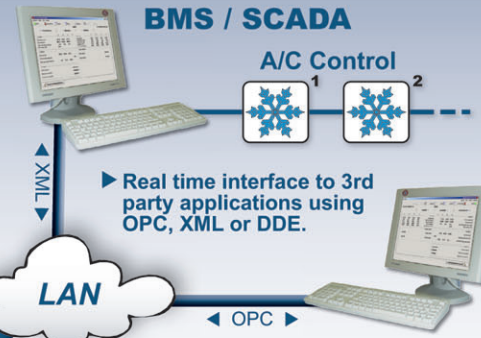

DTS SKTD
Socket Meter Replacement
Provides smart metering capability
for existing electro-mechanical meters

PowerStudio

- ▶ Integral web server
- ▶ Real time display of all electrical parameters
- ▶ Accepts input from water/gas meters and other process variables
- ▶ Energy graphs and Historical data (day, week, month, etc.)
- ▶ Export historical data (Excel format)
- ▶ Maximum connectivity internally (intranet) and externally (internet)

BMS / SCADA

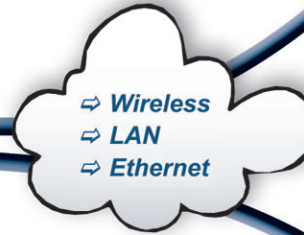

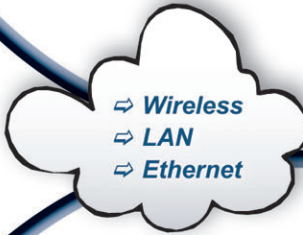

Solar (PV) Installations

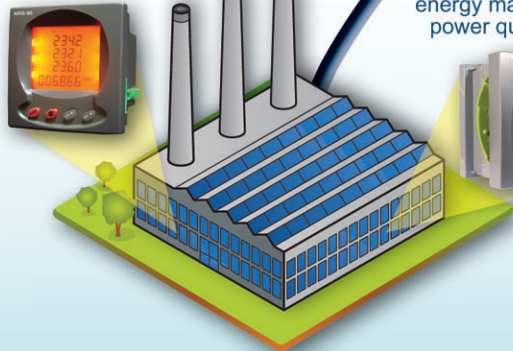

MK-DC Series
DC energy meters
for Solar (PV)
applications

DTS 305
Most flexible
energy meter with
configurable I/O

NRG 96
Provides detailed break-down of energy usage per line or process

Industrial Facilities

CVM-K2
Ideal for service entrance energy management and power quality analysis

DTS 101/105
Perfect for Submetering

EDMk
Perfect for multiple units energy monitoring

**Apartment Complexes
Office Buildings**

Water and Gas meters

LM-24-M / LM50-TCP
Pulse centralization units with 24 and 50 input capabilities

CVM mini
Ultra-compact power meter for detailed analysis of each location

DTS SKTD
Socket Meter Replacement
Provides smart metering capability for existing electro-mechanical meters

**Schools
Stores and Malls**
